

Give Your Employees a Lift!

Emergency Ride Home Program

Let us make it easier for you to support your employees commute to work. Our Emergency Home Program provides employees peace of mind when trying transit, carpooling, vanpooling, walking or biking to work.

What is an Emergency Ride Home?

Transit users, carpoolers, vanpoolers, walkers and bikers will never be stranded at their work site. Employees can use a taxi or rental car, at no cost, to get home in the event of a personal or family emergency, illness, or unexpected employment-related delay, such as unscheduled overtime.

What is the purpose of this program?

To increase the use of alternative modes of transportation to work by removing the barrier of not having access to transportation in the event of an emergency. And, to reduce traffic congestion and air pollution in our cities and county.

Who pays for it?

There is no sign up fee and we pay 75% of the cost per ride and the employer pays the balance. Ride vouchers will be provided by us.

Who is eligible to offer the Emergency Ride Home program?

All employers in the County of San Mateo.

What are your next steps?

Let your Alliance representative know that you are interested and we can send an agreement. We can help you market and promote this new benefit through personalized posters, email blasts and attendance at your employee fairs.

It's a simple, effective and inexpensive benefit for employees. Contact us at (650) 588-8170 and ask for your Alliance Representative or via email alliance@commute.org.
